

AMERICAN INTERNATIONAL UNIVERSITY-BANGLADESH  
Faculty of Science and Technology  
Department of Computer Science  
CSC 1205 Object Oriented Programming – 1 (JAVA)

Final Term Project Evaluation

Semester: Spring 2023-2024

CO Assessed: CO3

Total Marks: 40

**Student(s) must bring the completed project evaluation form to participate in the project evaluation process.**

**CO3 [PO-h-1]:** Determine and validate the appropriate system functional requirements, as well as their design for a real-life based application, in order to facilitate communication and analytical abilities.

Assessment Attribute/Criteria	Missing/Incorrect (0)	Inadequate (1)	Moderate (2)	Satisfactory (3)	Good (4)	Excellent (5)
Evaluation Criteria	Evaluation Definition					
Functional Requirement	Properly plan a real-life scenario-based project with proper functional requirement identification for the Object Oriented Programming project development activities.					
Role based Responsibility	Proper planning and execution of role-based responsibility allocation.					

*\*The following CO3 and Total Marks sections are to be filled out by the Course Teacher during the Project evaluation period.*

The following CO3 and Total Marks sections are to be filled out by the Course Teacher during the Project Evaluation period.							
SL	Student Name	Student ID	Section	Marks acquired in CO3 (10)		Total Marks Acquired (40)	
				Evaluation Criteria			
				Functional Requirement (5)	Role based Responsibility (5)	VIVA	10
						DEMO	10
						CO3	10
CODE	10						
1	Asma Akter	23-53029-3	M				
2	Shafin Ahmed	23-52988-3					
3	MD Abu Siam	23-52991-3					

*\* Students need to fill out the Student Name, ID, Section, Project Title, Contribution in %, Major Contributed Features, Project Link and the Project Description in accordance with their own project work.*

Project Title	SkyRoute Tour and Corporate Travel Management System (Uthao 0.01)

Hi\*\*\*Complete this part along with the parts mentioned in previous page prior to your project defense and submit accordingly.

<b>Project Title</b>	SkyRoute Tour and Corporate Travel Management System (Uthao 0.01)
<b>Description</b>	The fast advancement of technology in recent years has drastically altered our way of life. People are getting busier over time, which makes using a car or bus between cities more challenging. Furthermore, there's a growing need for faster and more effective travel solutions, particularly in emergency situations and for business purposes . Therefore , <b>Uthao</b> has devised a convenient solution to facilitate faster and safer travel at affordable price rates across various cities in Bangladesh.

**\*Project Timeframe**

<b>Requirement Analysis/Planning</b>	<b>Coding</b>	<b>Compilation of the whole Project</b>	<b>Testing</b>	<b>Total</b>
Almost 3 Days	Around One Week	3 Days	Almost 2 Days	Overall 15 Days

**\*Individual Contributions**

<b>SL</b>	<b>Student ID</b>	<b>Justification on Individual Contributions</b>
1	23-53029-3	I have done with Admin panel as well Dashboard of the project. Dashboard hold the information of client transition from one city to other .Admin panel keeps information of clients and manage them in secure way.
2	23-52988-3	Worked in Welcome frame as well in Admin login frame and all graphics related work. Graphics makes the project more attractive and reliable for clients. Admin login ,where admin manage the whole system and data of the users.
3	23-52991-3	Completed the major parts of the projects are Login ,Registration, Payment, User data frames. Registration holds the information of the client Login allows the user to excess the service Payment is done by the clients after booking the trip User data holds the information of the clients for admin to managing the whole system
